

MORE THAN SIMPLY LEARNING TO SWIM

Zoe's Story

"My daughter Zoe had her first ever swim lesson today with Leah in the Preschool 1 class, and LOVED it!

I held off lessons until I was more confident in her ability to take turns and follow instructions, which she's been working on in YMCA preschool gymnastics. She did really well, but is a dare-devil and had a few wandering off incidents. Leah and the lifeguard were right on top of things though, so I just wanted to thank you for such a safe program with such well-trained staff. The lifeguard literally stood in the pool ready to yank Zoe out if she wandered, and

Zoe out if she wandered, and Leah somehow managed to have eyes in every direction at once. I wasn't sure what to expect with Zoe never having been in the pool before, but she giggled the whole time and had a blast exploring the water, putting her face in and everything. It was a great first toddler swim experience for her."

Every child deserves to learn how to swim and the pride that comes with conquering fears and learning new skills.

By giving to the annual campaign, you ensure that no child is denied this experience due to their family's financial hardships. Give today at www.ymca-cv.org/give
